VARIETY	DESCRIPTION	QUANTITY
CASABLANCA (FE) (O) Smooth	Chefs and cooks will love the versatility of this potato. Good for all uses from boiling and chipping to mash and roasting.	
COLLEEN (FE) (O) Waxy	A good all-rounder, early bulking variety with waxy flesh and medium dry matter, as well as high disease and pest resistance. Particularly good for baking and chips as well as being an excellent new potato.	
FOREMOST (FE) Waxy	An old favourite, introduced over fifty years ago. The short oval, cream-fleshed tuber has an excellent flavour and holds its shape when boiling. Like most heritage varieties, it will have average sized yields and disease resistance.	
PENTLAND JAVELIN (FE) Waxy	Produces heavy crops of short, oval, white-skinned tubers. Great for boiling and salads. Good all-round disease resistance. Can be left in the ground longer than most first earlies to mature giving a more floury potato.	
CHARLOTTE (SE) (O) Waxy	A French potato which can be stored up till Christmas. Noted for good resistance against slugs and common scab. Ideal for boiling or roasting whole.	
KESTREL (SE) Smooth	Kestrel gives good yields of long oval, parti-coloured tubers which have good all-round cooking quality. It has good chipping potential, particularly early in the season. Also has excellent and disease and slug resistance.	
NICOLA (SE) Waxy	Good yield, oval tubers with yellow skin and yellow flesh. It has a high resistance to common and powdery scab. Great for boiling and wedges.	
RATTE (SE) Waxy	Classic French variety producing long tubers with white skin and yellow flesh. Distinctive chestnut flavour, delicious when boiled or steamed, hot or cold.	
SARPO UNA (SE) (O) Smooth	Multipurpose variety which can produce nice waxy salad potatoes if harvested early or can be left in ground for a heavy crop of baking potatoes. It has good resistance to late blight as well as a range of other diseases.	
YUKON GOLD (SE) Waxy	An attractive potato with yellow skin and yellow flesh. With high dry matter it's an ideal baker variety with surprisingly good boiling qualities.	

ALOUETTE (EM) (O) Smooth	Alouette is a versatile red skinned variety producing oval long tubers with shallow eyes and yellow flesh colour, good for baking, boiling, chipping and roasting. It also has excellent resistance to both foliage and tuber blight.	
ORLA (EM) (O) Smooth	Large white tubers with high blight and scab resistance. Can be harvested early or left to bulk up. Good for baking, mashing, chips, boiling and roasting.	
ARRAN VICTORY (MC) (O) Floury	Popular heritage variety due to high yields and long seasons. Distinct blue/purple skin covers white flesh with a good earthy taste which does fall apart when boiling but does make a great mash and fantastic roasties.	
CARA (MC) (O) Floury	Gardeners love Cara for its high levels of resistance to drought, blight, common scab and viruses. One of the best hardy growers, the tubers are white and round with shallow pink eyes. Good for baking and chips.	
DESIREE (MC) Smooth	Desiree is a very popular red potato, with pale yellow and firm waxy flesh with reasonable resistance to viruses and blight. It is good to bake, boil, mash, chip or roast and has particularly good drought resistance.	
JAVA (MC) (O) Smooth	A strong robust Variety with excellent fungal, bacterial, virus and pest resistances. Java is an ideal variety for gardens and allotments as it is a consistently high-yielding variety with attractive long red tubers.	
KERR'S PINK (MC) Floury	Round tubers with light pink skin and small deep red eyes and a cream-white flesh. Recommended cooking with skin on and mashed, roasted, or baked.	
KING EDWARD (MC) Floury	King Edward is one of the oldest UK potato varieties, Favoured for its excellent taste, good keeping properties and above average disease resistance. Medium dry matter, good for crisps, wedges, baking, boiling, chips, roast and mash.	
MARIS PIPER (MC) Floury	Golden skin, creamy white flesh and a fluffy texture. It has a high dry matter content making it great for chips, roast potatoes, mash and wedges.	
SARPO AXONA (MC) (O) Floury	One of the most popular Sarpo varieties, produces high yields of big tubers with red skins. It has great blight and disease resistance coupled with its weed smothering foliage and natural dormancy makes it ideal for the Grow It Yourself enthusiast or beginner.	
SUNSET (MC) (O) Waxy	A recommended alternative to long standing favourite, Desiree. Sunset produces long oval tubers with deep red skin and creamy flesh. Really high yields. Perfect for mashing, boiling and roasting. *DESIREE ALTERNATIVE*
